

Robert J. Fox, MD, Biosketch

Dr. Fox is Staff Neurologist at the Mellen Center for Multiple Sclerosis and Vice-Chair for Research of the Neurological Institute, Cleveland Clinic. He received his medical degree from Johns Hopkins University, neurology training at the University of Pennsylvania, a master's degree in Clinical Research from Case Western Reserve University, and multiple sclerosis fellowship training at Cleveland Clinic. Dr. Fox's current research interests focus clinical trials in multiple sclerosis, innovative MRI techniques to evaluate tissue recovery after injury and the effects of MS treatments, as well as MS patient decision-making and tolerance to risk. He serves as an advisor for many clinical trials, including the principal investigator of the NIH-funded SPRINT-MS phase II trial of ibudilast in progressive MS. In addition, he serves as the Managing Director of the NARCOMS MS Patient Registry, which currently follows over 10,000 people with MS. Dr. Fox serves as a member of various advisory and review committees for the National MS Society (USA), International Progressive MS Alliance, National Institutes of Health (USA), the General Advisory Council for the Cleveland Clinic Clinical Research Unit, the Editorial Board of *Neurology* and *Multiple Sclerosis Journal*, and as a consultant to the pharmaceutical industry.
