

## *Maria Pia Sormani*

---

Dr Maria Pia Sormani is Professor of Biostatistics at the University of Genoa, Italy. She received her Master in Biostatistics at the University of Milan, her Master in Biophysics at the University of Pisa and her degrees in Physics at the University of Genoa, in Italy. She collaborated for more than ten years with the Neuroimaging Research Unit at the S.Raffaele Hospital in Milan, studying the methodological issues related to the use of Magnetic Resonance Imaging (MRI) in Multiple Sclerosis. She worked for about twelve years at the National Institute for Cancer Research in Genoa in cancer clinical studies. She is now Professor of Biostatistics at the Medical School at the University of Genoa, where she teaches Biostatistics and Research Methods to students in medicine. Her main research interest is on methods for clinical trials in Multiple Sclerosis, with a special focus on MRI outcomes. She serves on the National MS Society Clinical Trials Advisory Committee. She is Visiting Professor at the Imperial College of London. She is in the editorial Board of Multiple Sclerosis Journal and Multiple Sclerosis and Related Disorders. She published more than 300 papers on peer reviewed journals.
