

Jack Antel is a clinical neurologist who coordinates the multiple sclerosis research and treatment program at the Montreal Neurological Institute. He is a Professor at McGill University where he has served as Chairman of the Department of Neurology and Neurosurgery. Prior to his work at McGill, Dr. Antel was a Professor of Neurology at the University of Chicago. He was the initial director of the Canadian Institute of Health Research supported training program in Neuro-inflammation. From 2007-2015 he was the National Scientific Director of the endMS Research and Training Network supported by the MS Society of Canada.

Dr. Antel served as Chairman of the Medical Advisory Board of the Multiple Sclerosis Society of Canada from January 2004-2007. From 2004 to 2006 he served as President of the International Society of Neuroimmunology. He is currently the President of ACTRIMS (American Committee for Research and Treatment of Multiple Sclerosis). He serves as the Editor for the Americas of the Multiple Sclerosis Journal.

His research interests include understanding the mechanisms of tissue injury and repair that account for the characteristic disease course of multiple sclerosis and how these can be therapeutically targeted. He has published more than 400 articles in scientific journals. Dr. Antel was the recipient of the 2005 Dystel Award from the National Multiple Sclerosis Society and the American Academy of Neurology.
