

Biographical note

Monika Bradl PhD

Monika Bradl is associated Professor at the Center for Brain Research (Medical University Vienna, Austria (<http://cbr.meduniwien.ac.at/>)). Her research interests include the autoimmune mechanisms and cellular and pathological processes involved in neuroimmunological diseases, especially neuromyelitis optica.

She obtained a degree in Biology at the Julius-Maximilians-University Würzburg (Germany) in 1986, a PhD in Biology (Dr. rer. nat.) in 1989, and then went to Philadelphia (USA) for a post-doctoral fellowship at the Fox Chase Cancer Center. After her return to Germany in 1992, she was group leader at the Max-Planck-Institute for Neurobiology in Martinsried in the Department Neuroimmunology. In 2002, she obtained the Venia Legendi for Neuroimmunology from the Medical Faculty of the Ludwig-Maximilians-University Munich (Germany), and joined the Center for Brain Research of the Medical University of Vienna (Austria), where she has her group on “cellular Neuroimmunology” in the Department Neuroimmunology. Since 2013, she is associated Professor of the Medical University of Vienna.
