

### **Biography Daphne Kos**

KU Leuven (University of Leuven) (B), Master of Science in occupational therapy  
AP University College Antwerp (B), Professional bachelor in occupational therapy  
Rehabilitation in MS (RIMS), Vice-president

Daphne Kos graduated as occupational therapist (OT) and movement scientist. She worked in the National MS Center in Melsbroek (B) as OT practitioner and researcher and studied fatigue management and assessment in people with multiple sclerosis in her PhD project.

Currently she is professor and co-manager of the OT bachelor and master programme in AP University College Antwerp and in KU Leuven (interuniversity programme with Ghent, Hasselt and Antwerp). Daphne Kos is vice president of the European organisation for rehabilitation in MS (RIMS). Her research domain is situated in the area of fatigue, occupational performance, use of (rehabilitation) technology, life balance, goal setting and assessment, mainly in multiple sclerosis.
